

Please note: Though you will receive two Little Print Posters with each order, you will receive only two baby-safe ink pads, as each pad will easily produce three prints.

Little Prints Instructions

Before beginning, please read all of these instructions.

- 1.) Practice using your own finger, and a blank sheet of paper.
- 2.) Gently press child's hand/foot to inked side of the ink pad, making sure you cover all areas of the hand/foot equally. For hands/feet bigger than the inked area, just use the pad multiple times to cover the entire surface.
- 3.) Place your Little Prints poem on a very flat, clean surface.
- 4.) Footprint: Walk child's inked foot (from heel to toe) over the blank printing area on your Little Prints using light pressure.

Handprint: Holding hand very flat, press hand on blank area on your Little Prints.

- 5.) Clean child's hand/foot with baby wipe and a few drops of baby oil, or warm water and soap.

For best results:

Clean and dry the infant's hand or foot before taking the print. To avoid blurring, use light pressure and do not move the hand or foot while pressing down.

A sleeping baby makes all of these steps easier.
